FEATURES

- 6" (152.4mm) to 14" (355.6mm) depth
- Compatible with curtain walls and storefront framing
- Variable blade and angle options
- Tested for combined wind, snow and dead loads
- Performance can be analyzed with Solector™ Estimator Tool
- Maximizes energy saving potential
- Multiple blade sizes ranging from 6" (152.4) to 14" (355.6) deep
- Standard anodized finishes only
